AJAX y PHP: Construyendo Aplicaciones Web Interactivas [Español]

Mihai Bucica, Bogdan Brinzarea, Filip Chereches-Tosa, Cristian Darie

AJAX y PHP: Construyendo Aplicaciones Web Interactivas [Español] Mihai Bucica, Bogdan Brinzarea, Filip Chereches-Tosa, Cristian Darie

Con este libro aprenderás a utilizar las últimas técnicas AJAX de desarrollo de aplicaciones web interactivas y sus tecnologías asociadas: JavaScript, PHP, MySQL... de una manera práctica mediante numerosos ejemplos. Este libro está destinado a principiantes y a programadores de nivel intermedio, donde unos conocimientos mínimos de PHP, XML, JavaScript y MySQL siempre son bienvenidos. Sin embargo, el conjunto de temas y casos prácticos incluido será de gran ayuda al desarrollador web de cualquier nivel.

About the Author

Mihai Bucica started programming and competing in programming contests (winning many of them), all at age twelve. With a bachelor's degree in computer science from the Automatic Control and Computers Faculty of the Politehnica University of Bucharest, Romania, Bucica works on building communication software with various electronic markets. Even after working with a multitude of languages and technologies, Bucica's programming language of choice remains C++, and he loves the LGPL word. Mihai also co-authored Beginning PHP 5 and MySQL E-Commerce and he be contacted through his personal website, www.valentinbucica.ro.

Bogdan has a strong background in Computer Science holding a Master and Bachelor Degree at the Automatic Control and Computers Faculty of the Politehnica University of Bucharest, Romania and also an Auditor diploma at the Computer Science department at Ecole Polytechnique, Paris, France. His main interests cover a wide area from embedded programming, distributed and mobile computing and new web technologies. Currently, he is employed as an Alternative Channels Specialist at Banca Romaneasca, Member of National Bank of Greece where he is responsible for the Internet Banking project and coordinates other projects related to security applications and new technologies to be implemented in the banking area.

Filip Chereches-Tosa is a web developer and entrepreneur, with a strong belief in the future of web-based software and open source. He started his career at the age of 9, programming BASIC on a Commodore 64. Filip blogs in Romanian on www.filipcte.ro and is an active member of the largest IT communities in Romania. He's always involved in side-projects, one of the latest being jobberBase (www.jobberbase.com), open source job board software that he extracted from www.jobber.ro (a successful Romanian IT job board).

Cristian Darie is a software engineer with experience in a wide range of modern technologies, and the author of numerous books, including his popular AJAX and PHP tutorial by Packt, his ASP.NET E-Commerce tutorial, by APress and his forthcoming SEO tutorial for PHP developers by Wrox Press. Cristian is studying distributed application architectures for his PhD, and is getting involved with various commercial and research projects. When not planning to buy Google, he enjoys his bit of social life. If you want to say "hi", you can reach Cristian through his personal website at <http://www.cristiandarie.ro>.
